REMARKS

Claims 38-39 have been canceled without prejudice to Applicant's right to prosecute the canceled subject matter in any divisional, continuation, continuation-in-part, or other application. Claims 35, 37, 49, 52, and 55 have been amended. The amendments are prior to any office action on the merits and thus are not made to overcome any rejections or cited reference. Accordingly, nothing in this paper should be construed as an intent to concede any issue with regard to any claim and the amendment of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment. Claims 58-68 have been added. Support for the claims can be found throughout the specification as filed. For example, support can be found at page 8, lines 11-15; page 9, lines 10-18; and page 21, lines 8-13. No new matter is believed to have been introduced.

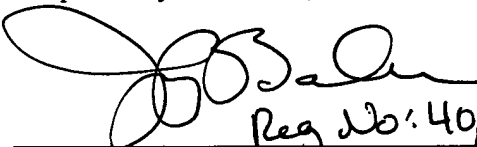

Applicant asks that all claims be examined in view of the amendment to the claims.

Enclosed is a \$162 check for excess claim fees. Please apply any other charges or credits to deposit account 06-1050.
